***Thank you for considering us to photograph your wedding!***

We cannot guarantee the weather but with over 17 years experience in wedding photography, we can guarantee a professional service combined with amazing pictures blending classic and contemporary styles. To provide this high level of service, we restrict the number of weddings undertaken each year so you may be assured of our undivided attention in photographing your big day.

This comment, from one of our wedding client's sums things up nicely:

**“Hi Sandy ..... Just wanted to say a heartfelt thank you for the beautiful job you have made of our album. We could not have wished for better! Of all the things we spent money on preparing for the wedding, this was truly money well spent and we look forward to sharing it with our family and friends. Many thanks and all the best for the future! Phyl and Dave”**

In making your choice of a wedding photographer, you could do this on the basis of price alone; however, we would suggest that dependability, creativity, experience and rapport are equally important, as there are no second chances in wedding photography!

First check that you are happy with our style of photography and that we are available for your date then, most important of all, arrange for a face-to-face meeting.

We need to establish the timings and details of your big day, to ensure there is sufficient opportunity for us to take the great pictures you would expect. We need to know that we can fulfill your particular requirements within a given timescale. The meeting will also allow you the opportunity to judge our prints and albums at first hand before proceeding with a booking.

The disc containing the low-resolution and high-resolution image files will be available around 2 weeks following your wedding. Once you have selected the images for your album (if you are having one) and confirmed the agreed layout, your finished album will be ready in around 4 - 6 weeks following confirmation.

**Wedding Books.** So that you can hold and pass on your wedding day memories to future generations, we provide a bespoke design service resulting in a beautifully finished wedding album, creatively presenting the story of your day. Your album will be individually designed around your picture selection; you will have the opportunity to approve the layout before your album goes into production. Our albums are made to the highest standards with many cover options available including canvas, acrylic and fine leather. You will love these albums, complimented by our photos and creative design. And as each page is individually designed, no two wedding albums are ever the same.
